# AYURVEDA

Ayurveda is the oldest and most comprehensive healing modality on the planet. It originated in India thousands of years ago (evidence reveals it could be almost 6000 years old) and is considered more than just a medical system. It is a science of life (Ayur=life and Veda=science). Just as animals and plants live in harmony with nature, the healing system of Ayurveda helps to bring us back into equilibrium with our true selves by simply using the inherent principles of nature.

Our programme is designed to give beginners a complete and comprehensive introduction to the principles of Ayurveda, in a setting that could only pamper your every sense. Dr Sharma will teach the theory of Ayurveda as well as diagnose your body type and explain the relevant emotional issues that go with it. He will recommend appropriate treatments which you can enjoy in the elegant spa rooms. We are confident you will return with a comprehensive knowledge of how to balance your daily living the Ayurvedic way. This is a great experience of learning about yourself and your health as well as how to live a balanced life going forward.

The teachings will be supported by a series of Ayurvedic massages and calming meditations.

## VENUE

Both hotels we have chosen belong to Hotel Group CGH Earth, which is committed to ecotourism. They claim Nature is their Chief Architect.

**Marari Beach Hotel-** A sprawling beach resort in Kerala is modeled on a local fishing village. Charming suites, villas and rooms with a white sandy beach to while away your afternoons.

**Coconut Lagoon-** Set in the heart of the backwaters, this resort is unique in its location. The property has a crisscross of canals around it and old feudal village mansions have been transplanted to give it its indigenous flavour. Situated on the edge of Vembanad Lake it is very picturesque. Coconut Lagoon is well known for its South Indian sea food specialities and you can even have cooking lessons to go with it!
